SUMMARY

Full-Stack Web Developer that excels in collaboration, problem solving, and time management. Especially passionate about javascript programming and MySQL databases. Collaborated on multiple projects and successfully researched and implemented new technologies (AWS, S3, GitHub Api) that improved application UX/UI. Looking forward to creating modern, efficient, and beautiful web applications and excited to work for a company that thrives on mentoring new developers, encourages learning, and fosters a positive, open work atmosphere.

TECHNICAL SKILLS

Languages: HTML5, Handlebars, Semantic HTML, CSS, Bootstrap, Bulma, Material UI, Responsive Design, JavaScript, jQuery, Mark Down, APIs, JSON, SQL, NoSQL, GraphQL, IndexedDB, OOP, ORM Framework, MVC Framework, PWAs, React, and MERN Stack

Applications: Microsoft Word, Excel, and Powerpoint; Google Documents and Sheets; Adobe Photoshop and Lightroom; GitBash, GitHub, and GitHub Pages; MySQL and MySQL Workbench; MongoDB, Compass, and Atlas; Command Line, Insomnia, Visual Studio Code, Node.js, Express Servers, Apollo Servers, and AWS/S3

PROJECTS

EnviroPact | <https://bit.ly/enviropact-github> | <https://bit.ly/enviro-pact>

- A web application that allows you to search a company and view their environmental, social, and governance data.
- Oversaw project collaboration between front and back-end. Coded Authorization, Local Storage, TypeDefs, API calls, and all JavaScript functionality in relation to API data.
- React; Material UI; JavaScript

Manage Me Now | <https://bit.ly/github-manage-me-now> | <https://bit.ly/manage-me-now>

- A web application that allows you to manage your employee teams, projects, and tasks.
- Managed timeline completion and project outline. Coded half of the routes and models, as well as the majority of the public javascript files.
- Handlebars; HTML5; CSS; Bootstrap; JavaScript

Snaccidental Recipe | <https://bit.ly/snaccidental-github> | <https://bit.ly/snaccidental-recipe>

- A web application that allows you to find recipes that include specified ingredients.
- Coded 70% of javascript files, including API integration and queries; managed project debugging processes.
- HTML5; CSS; Bulma; JavaScript; jQuery

Tech Blog | <https://bit.ly/tech-blog-github> | <https://bit.ly/tech-blog-mmonyok>

- A web application that allows any user to create blogs and comment on blogs by other users.
- This Tech Blog was a solo project.
- Handlebars; HTML5; CSS; Bootstrap; JavaScript

EXPERIENCE

Vendor Relations Specialist

OMNI Data Retrieval

Effectively managed all international vendors, as well as 50% of domestic vendors, which were focused across 18 states.

Independently handled vendor recruitment, pay negotiation, quality control, training, and overseeing vendors.

2016 – 2021

Lakeville, MN

Key Accomplishments:

- Submitted over 60 proposals for company website and process improvements with over 30 of them being accepted and implemented to substantially increase work productivity across company departments.
- Analytically dissected over 100 court websites and determined their serviceability and ability to assist in company efficiency. 58 were technically supportive and brought on board.

Administration & Field Services

2015 – 2015

Access Information Systems

Bloomington, MN

Successfully managed 100% of field inspectors across a three-state area.

Diligently worked with new law firms and real estate agents to implement them into the company database and coordinate their order processes.

Key Accomplishments:

- Collaborated with the IT director to bring company systems significantly up to date and paperless, while simultaneously troubleshooting current system issues.

EDUCATION

Full-Stack Bootcamp Certificate: *University of MN, Minneapolis, MN*

A 24-week intensive program focused on gaining technical Full-Stack programming skills.

BA in Classics: *Gustavus Adolphus College, Saint Peter, MN*

Graduated Cum Laude in Ancient Greek and Roman Studies.
